

TIMELESS.

LASER & BODY CLINIC

After your Laser Treatments Hair Removal

- Aloe vera gel, or frozen gel packs applied immediately post treatment cool the skin and are very soothing
- * Redness and peri-follicular edema (looks like a rash or bug bite) are common and resolve with time
- Avoid sun exposure, and use a broad spectrum (UVA/UVB) sunscreen
- Bruising, redness, and swelling are less common and resolve with time
- If a blister develops, treat as a wound
- * Hair may take up to 2 weeks to fall out
- Do not pick at treated areas
- Avoid heat (hot tubs, saunas, etc.) for 1-2 days
- Avoid skin irritants (products containing tretinoin, retinol, benzoyl peroxide, glycolic/salicylic acids, astringents, etc.) a few days post treatment.
- * Do not wax or pluck between treatments

Treatment intervals (a general guideline, use technicians recommendations):

Facial Hair: 6-8 week intervals between treatments

Body Hair: 8-10 week intervals between treatments

Back or Leg Hair: 10-12 week intervals between treatments

To maximize hair response, it is often best to space the treatments further apart.
